

G&I ANNOUNCES NEW EAB MEMBER

Kimberly J. Reynolds

The Gases & Instrumentation International Magazine Editorial Advisory Board (EAB) is an important if not essential facet of G&I. These highly qualified members, all experts in their particular technical domain, provide guidance and quality control to G&I for a vast array of technical disciplines that no one person could singly command. Gases & Instrumentation

International Magazine now welcomes its newest Editorial Advisory Board Member, Kimberly J. Reynolds.

Ms. Reynolds has been involved in the chemical analysis arena since the mid 1990s. She is currently employed by Tiger Optics, LLC, as a Product Manager for the Gases & Chemicals division. In this role, she is focused on application development, product line development, technical support, and customer service. Her strong background in gas analysis makes her a key asset in serving the company's diverse client base.

Prior to Tiger Optics, Ms. Reynolds was employed in Praxair's R&D organization for almost a decade. There she performed a variety of functions including method development, sampling system design, quality system compliance evaluation, laboratory auditing, FDA validation protocol design and execution, project management and technical support. She was instrumental in developing new methods and equipment for the detection of impurities in electronics grade specialty products including toxic and corrosive gases and chemicals. She was also responsible for implementing the resulting measurement technologies in production environments; her experience has engendered her with a very practical viewpoint on analytical instrumentation and systems. Ms. Reynolds received a B.S. in chemistry and mathematics from Canisius College in Buffalo NY, and focused on liquid chromatographic techniques during graduate studies at the University at Buffalo.

Editorial Advisory Board

John Baxter
Manager, Product & Technology
Swagelok Semiconductor Services Company

Lloyd Brown, Ph. D.
Semiconductor Process Gases R&D Manager
Praxair

Robert Ford
Bulk Specialty Gas Manager
Air Products

Ralph Cohen
President
Ralph M. Cohen Consultancy

Dr. Michael P. Fuller
Director of Marketing
AMETEK

Richard Green
Manager of Business Development
CONCOA

Carter Hall
VP / GM
Capitol Area Business Solutions

J. V. Martinez De Pinillos, Ph.D.
Director, Office of Microelectronics Programs National
Institute of Standards and Technology (NIST)

Kavita Murthi
Sub-Atmospheric Gas Products Marketing Manager
Matheson Tri-Gas

Dr. Edward Naranjo
Product Manager
General Monitors

Bruce Nasser
Analytical Chemist/Industrial Scientist
Oxygen Service Company

Patrick G. Smith
Vice President and Director of R&D
Sensor Electronics

Andrew Tipler
Senior Staff Scientist, Chromatography
PerkinElmer

Stephen Vaughan
President
Custom Gas Solutions
